Dear sir,

I beg to enclose herein for favour of your perusal the copy of my letter of this date to the Inspector General of Education.

I am arranging the opening of a Taluk Progress - Conference here in May next and I have requested the Deputy Commissioner to open the Conference and also the Nilavagalu School.

If you will be good enough to sanction the grant of Rs.3000/ for the Economic Museum, I have got full hopes of inducing Mrs. Besant to interest herself in the Museum.

Thanking you for support,

Yours sincerely,

Sir,

I beg to be permitted to draw your kind attention to th
ing requirements for the bene,It of the Malnad people of Hariharpu
in Koppa Taluk for the spread of Education so backward in these par
It is not for me to narrate why Malnad is so backward and as the Gov
ment have got the Malnad Improvement Committee for the uplift of the
people here, I crave your immediate attention to the following and s
early orders.

1. Hosakoppa School was opened by you in May 1914 and the
School. is steadily improving. The average attendance is encouraging
Circle Inspector visited the School and has remarked that it should
made a "Model Rural School". He has also added that people should be
enthusiastic. His remarks are attached for your kind perusal.

People are no doubt enthusiastic and their enthusiasm is s
tained, but living as they are in far off places without even a post -
Office and rapid means of communication they need better encouragement
and practical sympathy, prompt support and early sanction for their -
proposals.

You inform us in your D.O. (original was submitted to the Lewer
Sahib yesterday) that you have made a proposal to Government about -
increase of hands to Malnad Schools and Government sanction is awaited.

We do not know when the Government will sanctior it and what
time they will take to grasp your details. In the meanwhile the School
ffers. The Circle Inspector says we should be enthusiastic, but we -
eat Government should help us.

May I convene a big meeting and wire resolutions to the Lewer
eying for early orders to your proposals? May I have a copy of that
oposal?

One Hemachendracharya has been in my house for the last 9 months awaiting anxiously for an order. He has read up to School final, knows - typing also and is a man of some substance. If men like him are not encouraged and if Government take ten months to sanction a teacher or a proposal I prefer not to trouble Government but leave the matter in the hands of God Who shapes our destinies.

Am I to understand that inspite of proceedings declaring Government support and all that, an English teacher cannot be had for this school even ten months after it was opened by the highest Educational Officer in the Province. I beg for early orders. If sanction cannot be had and if the order of appointment cannot be made to reach us within another month, I - mean permitting Hemachendracharya to go away to his place in quest of better men who can promptly appoint him and then resign myself to other spheres - of activity and leave the School to its fate. I waited long and enough.

2. Regarding the Sanskrit School at Haribarpur, I understand that His Holiness of Haribarpur Mutt saw you at Davangere and spoke to you in - the matter. Pandit Gunda Shastry of Anegunde Agrhar near Sringeri is teaching 'Raghuvamsha' and an earnest begining has been made in the matter. The School is located in the Mutt itself. A few boys ten in number are being fed. The Pandit deserves encouragement. The Swami has no means at command. He is travelling on foot with scanty attendents. The Mutt itself has to be erected. Early sanction of a grant is solicited.

3. Another School has been started at Nilavegalu. A teacher Hax narmappa has been doing his work. I saw the School this day. 6000/ bricks have been already shaped and they will be burnt soon. Jungle has been - cleared. The place will be got ready. The Contractor was paid another instal-ment of money and in all Rs.775 have been paid. I enclose the contract - deed for your perusal and return. Rained Deserves special sympathy and - treatment. People here are not communicative enough. For communal good, more Schools and Reading Rooms have to be provided. A liberal grant is therefore necessary. I pray for an early grant of Rs.1000/. Plan and estimate of the Building have been already submitted. The Rained Improvement Sub - overseer has made them. I request you to sanction the early despatch of - furniture and other equipments. If needful money is sanctioned I am even willing to make benches, chairs, boxes and tables here alone to save the expence and trouble from Bangalore. The School is being held in a shed -

t present.

I beg for orders end en early reply for the three points:-
1. English teecher for Hosekoppe School; 2. Grent for Heriherpur ~~Petesele~~ Senskrit Petesele; 3. Building grent for Nilevegelu School.

I beg to remain,
sir,

I beg to submit herewith copies of a letter received by me from Mr. Sham Rau, and my reply thereto regarding the construction of a school with Library and Reading Room combined at Nilvagalu, for your kind perusal.

As you know fulwell the backward state of the Malnad people and their chief wants, I, need not tell you how their ~~affords~~ efforts towards improving themselves should be supported by Government. Mr. Sham Rau's letter if made known to them is sure to discourage them and it would be impossible to make them bestir themselves here-after.

To

Rao Bahdur, [illegible]

Inspector General of Education in

Mysore.

Sir,

I beg to acknowledge, with thanks, the receipt of your letter No. 15487/[illegible] dated the 15th March '15 returning the estimate forwarded with my previous letter and to state that the same took me by surprise as the contents were unexpected.

The government [illegible] that you are [illegible] to observe on [illegible] and [illegible] in the number of schools and what the people have done more than [illegible] in the cause of education. Your letter has however thrown cold water [illegible] the [illegible].

You know [illegible] and the lethargic condition of the people in [illegible] you cannot [illegible] I had in making [illegible] for the school building at Vilv[illegible]. Work has been done and the building is nearing [illegible] people who have been told to believe that the Government is doing its utmost to help them, [illegible] get started [illegible] school [illegible],

discouraged and it would be disastarous to all future efforts in public affairs. They have been told that the government has [illegible] and (government is fixing) viewing with regret the backward [illegible] in matters educational. If they were now to be told that there are no funds, they will think that they have been merely hoaxed.

As to the necessity for a building of the sort for which plan and estimate were submitted, I request you to understand that it is one school for five villages and there is a chance of about Hundred and fifty boys and girls attending the school in course of time. We have not [illegible] what we can afford to do. We have proposed to use only brick and mud. such a buildin in the Malnad where heavy rainfall is doing havoc to buildings, is not a luxury.

The cost [illegible] little more on account of combination of the reading room and the library for which the funds have to be obtained from the village commities. But the money, coming according to routine from many funders, comes from the same Government (Karnata) coffers and the combination of the school, Reading Room and library would be advantageous to the people and economical to Government. I think in such cases where economy allows it, it would be better for all, if a special combined grant were recommended to be given than ask the people to apply separately for each building.

As regards [illegible]ent of previous approval, the above

re[illegible] [illegible]ake it clear t[illegible]

it not more [illegible]n would have required previous approval if [illegible]ce

[illegible] for school, library, and Reading Room

ly. Even then we did not do it of our own accord; but we took

~~the~~ the advice of the Taluq Amildar who it was who sent the Sub-

Overseer to prepare the plan and estimate and who encouraged me

and the people to make up the work on hand.

Whether the government gives aid or not, the con[illegible]ion

of the school will however be completed; but this would act

as a bad precedent in future and is sure to lull the people

into [illegible]lethargy. I would therefore request you to be so good

as to place this aspect of the case before the Government

and obtain special sanction for payment of a combined grant

of Rs. 1000/- towards the proposed bui[illegible].

The ~~terrible~~ wretched state of Malnad in education cannot fail

to move you ~~so~~ as also the Government in according the sanction

of a grant asked for. Your kind attention is [illegible]

fact that in the Malnad there are approximately 4000 boys and

4000 girls of whom only four hundre[illegible] present

seeking instructions. The number of schools [illegible] whole

Malnad is only twenty [illegible] of which [illegible]re Government, one

hundred, and ten private schools. These figures are certainly

appalling. ~~I~~

In conclusion I would draw your kind attention to my previous

letters in this connection which would [illegible] clear in [illegible]

I [illegible] remain,

Rao Bahadur, L. Shama Rao Esquire . . .,

Inspector General Of Education, In Mysore,

With reference to your letter No.1[illegible] Dated the 17th inst. calling for a statement of subscriptions collected by the Malnad people for Hivagalu School &c, I beg to send herewith the list as called for.

The list was sent on the 9th August with my letter No. 101.and as you require it, I send the same a second time.

As for the completion report, I request you to address the Executive Officer who has already seen the building and has sent in interim certifi-

The building is now complete except that it needs covering on the top over portion with Bangalore tiles for which orders have already been placed locally and the covering will take place next week.

The School was to have been opened by the Deputy Commissioner on the 1st.but was unavoidably postponed owing to the Dy Commissioner having taken leave, consequent on the sad bereavement in his family. This circumstance delayed the completion to some extent. The Deputy Commissioner has now agreed to open the building in February next and Government have permitted me to give him two souvenirs on the occasion.

I have to inform you that the School is at present being held in a private house close by and the teacher (Lakshminarayappa) is being paid by the villagers for the same.

The contractor (Issuff Saheb) has been paid Rs 945. and has yet to get Rs. 109[illegible]., including the cost of clearing the jungle. I have incurred expenditure of Rs 80 for license fee towards getting timber from the forest.

I am personally aware of the backward condition of the Malnad people, their timidity, want,of resources and aloofness. They have to be assisted liberally.

Under the circumstances, the [illegible] have gone beyond their

further
in paying the cost of construction. They have to incur an expenditure, w
e[illegible]the Dy Commissioner opens the School house.

I therefore request you to be good enough to recommend to Govern[illegible]
for the granting of half the cost Viz Rs.1057-8-0 incurred in bringing the
School in to existence under so much adverse.conditions and circumstances.
Contractors bond had already been sent in for your perusal and return.

An early sanction of the grant is earnestly requested.

I beg to remain
